Profile

I am a front end developer, that is seeking to further my knowledge and become a full stack developer. I am a strong self-motivator pursuing to be one of the best at delivering beautiful and responsive websites using the latest and greatest while still using tried and true technologies and frameworks.

Skills

Development

- HTML5, CSS3(css grid, flexbox)
- JavaScript, jQuery, AJAX,
- React.js/React-Bootstrap
- Bootstrap

Tools

- Git
- Node Package Manager (NPM)
- Netlify
- Atom (text editor)

Operating System

- Linux (ubuntu, kubuntu)
- Mac OSX
- Microsoft Windows

Professional Experience

57 South – Front End Developer contract January 2018 - current

- I have been a part of various internal projects within 57 South. Most notable of the projects is a document collaboration app that uses React.js and CSS flexbox.
- We have been working on the design of the app and deciding which tech stacks would best suit the project. I am also working with the rest of the team on rebranding and developing 57 South's new website currently we are using Bootstrap for development.

57 South – Front End Development Intern – April 2017 - January 2018

- Learned to create responsive web sites using media queries.
- Worked within a collaborative agile environment.
- Gained knowledge in using Git version control with the other developers.
- Learned HTML, CSS, JavaScript , jQuery , AJAX , React.js, React-Bootstrap, NPM, and the command line.

Education
